

## Great news!

**HUNTER**  
The City University of New York

Meet our latest recipient of the Dr. Bath Scholarship, **Cai Yi Wu**. Cai is a Yalow honors science student at Hunter College. The Yalow Scholars Program offers students interested in medicine and science research with a variety of advantages and resources that help to create an extraordinary learning experience at Hunter College. Students in the program will have an opportunity to work with top-notch faculty, attend special events and conferences, and gain access to the resources required to start a career in the sciences. However, as the pandemic has taken a toll on many financially, the Dr. Bath Scholarship was awarded to also aid in emergency funding for students who need equipment to take online classes and who have lost their part time job. We are proud to award \$2,500 to Yalow Scholar, Cai Yi Wu on behalf of Dr. Patricia Bath.

“

*I am writing to thank you for your generous donation on my behalf. At Hunter College, I hope to major in Biology and Education. I am also working as part of the Hunter student admissions team in hopes of helping prospective Hunter students make the best of their opportunities.*

*Your award has made my journey easier and has allowed me to chase my passions.*

*I hope I do my part in carrying on the legacy of Dr. Bath. – Cai Yi Wu*
