

WE R STEM, LLC

Est. 2018

WeRStem, LLC was established to maximize inclusive excellence and accessibility to learning and education opportunities, resources, and mentorship in STEM for those who are considered underrepresented in STEM across the academic pipeline continuum.

The name was chosen to highlight inclusivity and to bring in a range of voices to center the marginalized. The vision is to further promote and spotlight advancements in Stem. We continue to support and fund the future through Dr. Patricia Bath's vision and likeness.

We are humanity.
We are inclusive.
We are global.
